March 23	Session 8
March 30	Session 9

Each speaker is usually a department head and is asked to prepare a presentation, whether it is a Power Point presentation, short video that pertains to their subject or just handouts for the students. Participants respond very well to receiving handouts to include in their binder. Many students have said they reference handouts after the class is over. Each speaker is given 45 minutes to an hour to speak, with time for questions at the end of their topic.

Attendees are limited to the first 15 that submit an application. All others will be given first preference for the next Citizens' Academy. Applicants must be a City of Horseshoe Bay resident with preference given to full-time residents. If there are remaining seats available non-Horseshoe Bay residents may be considered.

We have an attendance policy for the class to ensure we always have a full and dedicated class. Participants missing two or more classes do not graduate from HSB 101. They have the option to make up the classes they missed when the next HSB 101 class takes place. If they make up the sessions, they may graduate with the next class.

During the graduation ceremony, each student is presented with a certificate of completion signed by the Mayor, and a HSB 101 polo shirt embroidered with the City logo. Their pictures are taken with the Mayor and classmates to be sent to the local newspaper and media outlets.

### **Evaluations**

In the binders provided to participants, there are speaker evaluations for each session. We ask the participants to fill out individual speaker evaluations and turn them in to a staff member at the end of each session. Each speaker receives a summary of their evaluation so they can adjust their presentation accordingly. During the last session, participants are given a course evaluation that covers the entire program and asks broad questions about how to improve the course. We also take notes during the discussion to make sure we get as many comments, suggestions, complaints, and praises recorded in case they do not put those thoughts on their evaluation form.
