

## Horseshoe Bay Nature Park – Update

The progress of Horseshoe Bay Nature Park is well underway. The Master Plan was completed in December. We are encouraged with the financial support to date, along with the commitments received from many of our residents. Thanks to our unique, one of a kind community, we are approaching two thirds of the funds necessary for Phase One. HSB Park, Inc. is a 501c3 tax exempt nonprofit corporation and has the opportunity to shelter taxes with the use of a Roth IRA.

HSB Park, Inc. has entered into a contract with Sarah Yant, the founder of Twistleaf, a restoration specialist to complete the design and development for Phase One. This includes: the use of heavy construction equipment for the contour swales & seeding, parking lot & fence, boulders along Golden Nugget and 1/2 mile paved walking trail. Once the design is completed with bids received along with the sufficient funds raised, the construction will begin in July and completed by mid to late fall, at which time the Nature Park will be open to the public.

If all goes well, we hope to have the funds by this Fall for Phase Two which includes: park signage, additional bird blinds & bird screens, additional benches, picnic tables, the observation deck, irrigation & water accessories.

A special thanks for the support of Mayor Cynthia Clinesmith, City Council members and the City staff. The park will be a welcome addition to our community and will provide the opportunity to respect and enjoy nature, while learning more about the birds and the bees.

For further detail regarding the opportunity to donate, contact any of the HSB Park, Inc. board members: Steve Jordan, Johnny White, Vicki Adcock, Andy Thurman, Stan Smith, Kyle Womack or John Smith

## List of Donors as of 2/28/21

Ronnie & Vicki Adcock	Martin Foundation
Anonymous	Scott & Gail Matthews
